

## Product Details and Features

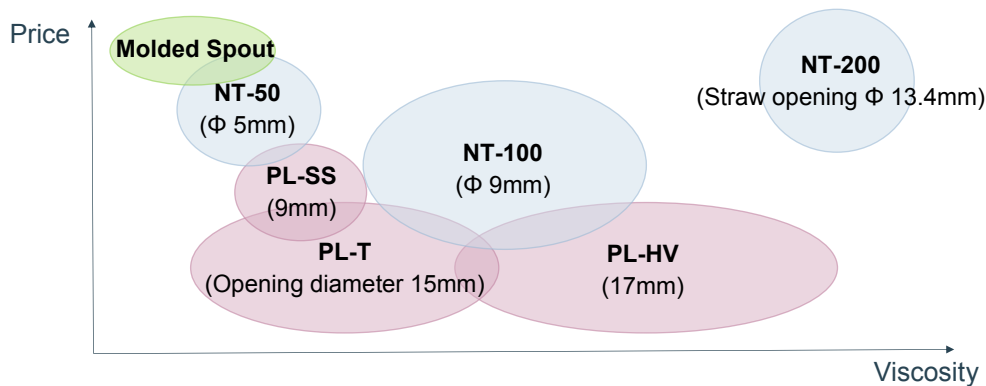

We offer fully customized pouches that fit your needs from traditional molded spout to our unique Flowpack® and 3D pouch. Contact us for details.

### Flowpack®

Flowpack is a single use pouch which uses thermosetting construction or straw fitment for easy pouring.

### Recommended Pouch Fitments Chart

### 3D Pouch

3D pouch is an unique concept that Zacros developed using our 3D packaging technology. We can customize any 3D shapes and fitments you desire.

### Other Products

We also offer other types of pouches including stick pack and medical related packaging with our unique user friendly technologies.

For medical related packaging, please visit our Medical Packaging page.

### Fitment options

We offer a wide variety of fitment options. See details in Custom Fitments page.
